

Capture Crisp Photos, Enjoy Superfast Speeds on Boost 5G Network with the MOTO G 5G - 2023

Boost Mobile adds another Motorola smartphone to Boost 5G network compatible device lineup

Boost Mobile customers have another smartphone option that maximizes the Boost 5G network¹, offering blazing fast coverage with the new moto g 5G - 2023. This smartphone is full of features designed to let your imagination soar, like an advanced 48MP camera system and large 6.5" display, perfect for all your favorite games and streaming needs.

Plus, for a limited time, new customers who switch their service to Boost Mobile at a [local store](#) can get the moto g 5G on us.² Existing Boost customers can also visit their local store to upgrade to the moto g 5G for \$79.99.

The device's Snapdragon® 480+ processor maximizes 5G connectivity, allowing customers to download their favorite shows in seconds, stream with virtually no buffering, and video chat without lag. The moto g 5G is further powered by the Boost 5G network combined with our partner 5G networks, offering Boost Mobile customers fast and reliable coverage.

Professional and amateur photographers will appreciate the advanced 48MP camera system in the moto g 5G, allowing them to capture detailed photos day or night. While a dedicated Macro Vision lens captures the smallest details. The latest software like Auto Smile Capture guarantees the perfect group photo every time, and Smart Composition uses the power of AI to improve images. Music and movies are enhanced with an immersive multidimensional sound of Dolby Atmos® backed by stereo speakers. The creativity continues knowing there's plenty of storage and a battery that lasts up to 44 hours³ on a single charge. Plus, a water-repellant⁴ design takes the worry out of getting caught in the rain.

"Performance is key when you're talking about streaming music or video chatting. The moto g 5G lets customers experience the power of the Boost 5G network without missing a beat," said Michael Kelly, president, Retail Wireless, DISH Wireless. "This is another great Motorola device that we've recently added to our lineup, providing our customers with another option for a fast, affordable smartphone with an amazing camera too."

At the beginning of August, the [moto g stylus 5G arrived at Boost Mobile stores](#). Now, customers can choose between the latest smartphones from Motorola knowing that both can take full advantage of the Boost 5G network.

For more details on the moto g 5G, and our entire lineup of Motorola devices, please visit [BoostMobile.com](#).

¹ The Boost 5G network is available in select markets.

² Offer valid for a limited time. While supplies last. Taxes extra. New customers only; req. activation on eligible plans.

³ All battery life claims are approximate and based on the median user tested across a mixed use profile (which includes both usage and standby time) under optimal network conditions. Actual battery performance varies and depends on many factors, including signal strength, network and device settings, temperature, battery condition, and usage patterns.

⁴ Water-repellent design creates a barrier to help protect against moderate exposure to water such as accidental spills, splashes or light rain. Not designed to be submerged in water, or exposed to pressurized water, or other liquids; may diminish over time. Not waterproof.
