

'Tis the Season for Tablets (and Summer Sunshine)! Boost Mobile Welcomes the Latest Samsung Galaxy Tablet

While it may not be the holiday season, this summer is shaping up to be the Season of Tablets for Boost Mobile customers. In the past few weeks, we've rolled out new tablets and smart watches for our customers, and today we announce the latest in our growing device lineup just in time for the summer season—the Samsung Galaxy Tab S10 FE.

Beginning today, Boost Mobile customers can purchase the new Galaxy Tab S10 FE tablet for \$599, or take advantage of a discounted price of \$399 when purchased outright with the Boost Mobile [Tablet Unlimited Data plan](#) for \$20/month. This plan includes 30GB of premium data and custom [Add-Ons](#).

Boost Mobile keeps delivering what consumers want—lightning-fast speeds on the device of their choice. With 99% nationwide coverage, Boost Mobile ensures a seamless experience, providing reliable, high-speed connectivity wherever customers go. This summer is no exception!

The new Galaxy Tab S10 FE features a large viewing screen, robust performance with a portable and durable form factor perfect for getting out and enjoying the good weather. With its 10.9" screen size, the new Samsung Galaxy S10 FE delivers an immersive experience with Vision Booster, enhancing display visibility up to 800 nits HBM and an impressive viewing experience perfect for reading a book in the summer sun. The tablet is powered by a Samsung Exynos 1580 processor for better productivity, and smoother, faster game play without interruption. Consumers can also witness improved multitasking with greater memory capacity of up to 1.5TB and Galaxy AI with a single tap.

And feel free to take it to the pool or beach this summer. With built-in water and dust resistance with IP68, if the tablet happens to get wet, it'll be OK. The Galaxy Tab S10 FE can withstand 1.5m of fresh water for nearly 30 minutes. And that's not all, the Galaxy Tab S10 FE is 4.4 percent lighter than previous models at only 500g. This lightweight, slim device is made for on-the-go fun and easy to toss in your beach bag with plenty of room left for towels and sunscreen. The Galaxy Tab S10 FE can also be used as the primary camera with an upgraded 13MP higher resolution rear camera allowing consumers to capture all their summer memories.

Whether you're traveling the world, gaming or staying productive on the go, the Galaxy Tab S10 FE is designed to keep up.

Ready to upgrade your experience? Visit [BoostMobile.com](https://boostmobile.com) to get a new tablet today.
