Boost Mobile Launches at More Than 7,500 7-Eleven Stores Nationwide

Wireless customers can now purchase low-cost Boost Mobile wireless service as part of a national retail expansion with 7-Eleven

Beginning this month, Boost Mobile services will be available in 7-Eleven stores as a part of a nationwide retail expansion that adds more than 7,500 stores to the brand's reach. With this expansion, new and existing Boost Mobile customers will be able to purchase SIM kits to start new service, and Re-Boost cards to stay connected, providing millions of Americans easy access to a reliable and affordable wireless option.

"Partnering with 7-Eleven to expand our retail footprint is an important step in the overall expansion and growth of our Boost Mobile wireless business," said Rob Hussa, senior vice president, Boost Mobile at DISH Wireless. "With more Americans trying to cut costs on their wireless service, expanding access to Boost Mobile at thousands of 7-Eleven stores across the country provides better convenience, value and service to customers across the nation."

In addition to 7-Eleven, Boost Mobile devices and service can be purchased at national retailers like Walmart, Target and Best Buy. SIM kits and Re-Boost Cards are available at 7-Eleven, CVS, Walgreens and Kroger stores nationwide.
